

NEW FOR 2020

XGO® LIGHTWEIGHT ALPHA A10 SERIES FACE AND NECK MASKS

XGO® Performance and Flame Retardant gaiters are engineered with our Acclimate Dry moisture management (wicking/drying) and Ag47®* anti-bacterial* treatments, providing ideal cover for both your nose and mouth. Both treatments have been tested to show lasting effects at 25+ launderings which make them machine washable for reuse.

*Ag47® is an anti-bacterial treatment, not an anti-viral treatment. It is known to kill bacteria, not viruses. Ag47 will not kill Covid-19. Not FDA approved.
